- Java
- JavaScript
- HTML
- CSS
- Python
- C/C++/C#
- PHP

FRAMEWORKS

- Node
- React
- Angular
- Laravel
- Spring
- Django
- NET

OTHER TECHNOLOGIES

- Git / GitHub
- Figma / Adobe XD
- Postman
- Trello / Notion / Jira
- Docker
- Visual Studio

ABOUT ME

Bachelor's degree in Computer Technology, systems developer and designer, with a master's degree in user-centered interactive systems. Enthusiastic about developing technology with a focus on detail and visual knowledge.

EXPERIENCE

PRACTICES

2022 - 2023 | Facultad de Estadística e Informática

- Development of technology for the automation of administrative processes (mobile and desktop applications with AI).

EXAVER EXAM APPLICATION MANAGEMENT MODULE

2024-2025 | Self-Access Center, Universidad Veracruzana

- I developed a complete module (frontend and backend) using CodeIgniter and MySQL for managing internal and external EXAVER exam applications. It included dynamic forms, examiner assignment, and administration reports.

FREELANCE

2023 - 2025

- Development and deployment of e-commerce platform with React, Node.js, and PostgreSQL; implementation of RESTful API for web, mobile, and desktop clients.
- Design of responsive and accessible interfaces with Bootstrap and custom CSS.
- Version management with Git and workflow automation using GitHub Actions.
- Application of user-centered design principles and technical documentation best practices.

ND - NEGOCIOS DIGITALES

2025 | UX/UI Developer

- I collaborated with multidisciplinary teams to transform requirements into functional and accessible interfaces, ensuring consistency between design and code for the SIAF-RP system of the Ministry of Economy and Finance in Peru. I applied usability principles and good development practices to optimize navigation, performance, and user satisfaction.

ACADEMIC ACHIEVEMENTS

HACKATHON CODING4INTEGRITY BRASIL EDITION AND HACKATHON ANIEI MEXICO EDITION

SEPTEMBER 2022 | São Paulo, Brazil NOVEMBER 2022 | Facultad de Estadística e Informática

- I stood out for creating an anonymous information website during a competition held over two consecutive days. Third place in the second competition, which sought a mobile and web-based solution to address the issue of information during the COVID-19 season.

PUBLICATION RESEARCH ARTICLE: USER MODELING USING EEG SIGNALS AND USER MODELING WITH EEG SIGNALS FOR LEARNING STYLES. CASE STUDY.

OCTUBRE 2024 | CONISFOT Y JUNIO 2025 | PROGRAMMING AND COMPUTER SOFTWARE - SRPINGER

- Author of a peer-reviewed article on HCI in CONISOFT. Demonstrating expertise in research design, data analysis, and academic writing, contributing new ideas to the field and another article that proves in a practical way, using ML in Python, that reading EEG signals can be a key feature in online learning.

CERTIFICATIONS AND WORKSHOPS

AUGUST 2022 | MICROSOFT AZURE FUNDAMENTALS AZ-900

GROW WITH GOOGLE FOR WOMEN IN STEM 2023

GITHUB ACTIONS CI/CD CERTIFICATION 2024

NOVEMBER 2021 AND NOVEMBER 2022 | PARTICIPACION EN EL FORO PROYECTA-TC

OCTOBER 2023 | ENGLISH CERTIFICATION TOEFL ITP AND EXAVER
